

分数 (1) 分数のたし算・ひき算

次の計算をなさい。

$$\textcircled{1} \frac{4}{13} + \frac{8}{13} =$$

$$\textcircled{7} 1\frac{5}{9} + 3\frac{8}{9} =$$

$$\textcircled{2} \frac{10}{21} + \frac{11}{21} =$$

$$\textcircled{8} 7 - 3\frac{12}{19} =$$

$$\textcircled{3} \frac{11}{17} - \frac{8}{17} =$$

$$\textcircled{9} 6\frac{1}{5} - 2\frac{3}{5} =$$

$$\textcircled{4} 1 - \frac{7}{12} =$$

$$\textcircled{10} 2\frac{9}{11} + 4\frac{8}{11} =$$

$$\textcircled{5} \frac{15}{23} + \frac{9}{23} =$$

$$\textcircled{11} 4\frac{17}{25} + 6\frac{19}{25} =$$

$$\textcircled{6} 4 - 1\frac{7}{11} =$$

$$\textcircled{12} 9 - 3\frac{11}{18} =$$
